DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7-14, 18-27, and 30 rejected under 35 U.S.C. 102(b) as being anticipated by Haber et al. (USPN 4,935,013).

Haber et al. discloses a needle receiving portion (64), a sheath portion including a first (72-1, 68) and second leg (72-3, 72-2, 68), and a trigger (80, 70, [86-engagement portion]) supported adjacent to a proximal end of the first and second legs; wherein the sheath portion is movable from an extended position in which the first and second legs shield a distal end of a needle positioned within the needle receiving portion to a primed position in response to movement of the trigger into engagement with the first and second legs, wherein the sheath portion is configured such that in the extended position a longitudinal force acting on a distal end of the sheath portion maintains the sheath portion in the extended position and in the primed position a longitudinal force acting on the distal end of the sheath portion urges the sheath portion to a retracted position in which the distal end of the needle is exposed and a nose portion (74) [Figures 8-10 and entire reference].

Allowable Subject Matter

3. Claims 31-34 are in condition for allowance.
4. Claims 15-17, 28-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 15-17 and 28-29 are objected to because of the resilient member that urges and controls the sheath portion.

Response to Arguments

6. Applicant's arguments with respect to claims above have been considered but are moot in view of the new ground(s) of rejection.
7. The previous rejection of Sirbola has been withdrawn because of the arguments made by the applicant.
